Verify

- Processor: next-gen chip for heavy physics processing
 - RAM: enough space for background apps and OS
 - Disk Space: required: fast PCIe 4.0 drive
- Graphic Processor: RTX 3060 or RX 6600 for minimum settings

Immerse yourself in the golden light of 9th-century Baghdad

As you step into the vibrant streets of this ancient city, you become Basim Ibn Ishaq, a young street thief with a thirst for adventure and a talent for deception. You've spent years honing your skills on the streets, learning to navigate the crowded markets and narrow alleys with ease. Your life is one of survival, always looking over your shoulder as rival thieves and corrupt guards seek to do you harm. But you're not just any ordinary thief – you have a gift for getting in and out undetected, and a keen eye for spotting valuable targets. With each new score, you'll earn the respect of your peers and the attention of powerful figures who will stop at nothing to get what they want.*Key Features:*1. Precise parkour mechanics that simulate the thrill of movement2. Tactical tool use that challenges you to think creatively3. Careful social stealth

that rewards patience and strategy

Experience the city’s Golden Age

Baghdad is a city like no other, with its intricate networks of canals, mosques, and markets. As you explore the city, you’ll encounter a rich cast of characters, each with their own stories and motivations. From the wealthy merchants who patronize the great madrasas to the ruthless mercenaries who fight for the highest bidder, every interaction is an opportunity to learn something new about this fascinating world.

Historical Setting:	Dense, beautifully realized city
