Power BI

Power BI from Microsoft is a potent platform for analyzing and visualizing business data designed to transform scattered information into clear, interactive reports and dashboards. This solution is aimed at analysts and data specialists, as well as for everyday users seeking simple analysis tools without advanced technical skills. Power BI Service cloud enables simple and efficient report publishing, updated and available from any location globally on various gadgets.

Microsoft Publisher

Microsoft Publisher offers an affordable and user-friendly platform for desktop design, centered on creating visually compelling print and digital materials steer clear of using advanced graphic tools. Unlike conventional editing software, publisher enhances the ability to accurately position elements and craft the page layout. The program offers numerous customizable templates and versatile layout options, which

assist users in quickly beginning their tasks without design skills.

Microsoft Outlook

Microsoft Outlook is a reliable tool for managing emails and personal schedules, built for optimal email organization, calendars, contacts, tasks, and notes in a functional, straightforward interface. He has a long history of serving as a trustworthy tool for business communication and planning within the corporate sector, where time organization, message structuring, and team integration play significant roles. Outlook offers versatile options for managing your emails: covering the spectrum from filtering and sorting emails to setting up automatic responses, categories, and rules.

Microsoft OneNote

Microsoft OneNote is a virtual note-taking tool designed to facilitate fast and easy gathering, storing, and organizing of notes, thoughts, and ideas. It harmonizes the simplicity of a notebook with the sophistication of modern software: you can write text, upload pictures, audio files, links, and tables here. OneNote is versatile for personal notes, studying, work, and group projects. Utilizing Microsoft 365 cloud integration, all entries are automatically synced between devices, making sure data is accessible from any place and at any time, whether on a computer, tablet, or smartphone.
