2. Power BI integration

Enables embedding of interactive dashboards and analytics into Office documents.

3. Smart autofill in Excel

Predicts and continues data entry patterns using AI.

4. Built-in translation and dictionary

Quickly translate text or find synonyms without leaving the document.

5. Free educational licensing

Students and educators can access Office apps at no cost.

Power BI

Microsoft's Power BI serves as a powerful tool for business intelligence and data visualization crafted to make scattered data accessible through interactive reports and dashboards. The instrument is intended for analysts and data practitioners, for common users seeking user-friendly analysis tools without requiring detailed technical knowledge. Power BI Service's cloud platform facilitates effortless report sharing, updated and reachable from any global location on different gadgets.

Skype for Business

Skype for Business is a corporate communication solution for online interaction and collaboration, integrating instant messaging, voice and video communication, conference functionality, and file exchange within a single protective measure. Built as an enhancement of standard Skype, aimed at

professional settings, this system enabled companies to communicate effectively both internally and externally reflecting the corporate requirements for security, management, and integration with other IT systems.

Microsoft Visio

Microsoft Visio is an expert-level application for designing various diagrams, schematics, and visualizations, useful for showing elaborate information in an accessible and structured form. It is vital for showcasing processes, systems, and organizational arrangements, technical architecture or drawings of IT infrastructure depicted visually. The program delivers a comprehensive set of ready-made elements and templates, quick to move onto the workspace and link up with each other, constructing organized and readable charts.

Microsoft Teams

Microsoft Teams is an all-in-one communication platform for teamwork, messaging, and video calls, developed to meet the needs of teams of any size. She has emerged as a pivotal component of the Microsoft 365 ecosystem, merging chats, calls, meetings, file sharing, and third-party service integrations into a single workspace. The main concept of Teams is to centralize digital tools for users in one place, an environment to communicate, organize, meet, and edit documents collaboratively, without leaving the app.

1. Crack for enabling all locked menu options
