Microsoft Office provides a comprehensive set of tools for work and study.

Across the world, Microsoft Office is known as a leading and reliable office productivity suite, providing all the essentials for effective document, spreadsheet, presentation, and other work. Designed for both professional environments and home use – during your time at home, school, or work.

What applications are part of the Microsoft Office suite?

Microsoft OneNote

Microsoft OneNote is a virtual digital notebook created for swift and simple gathering, storing, and organizing of any thoughts, notes, and ideas. It brings together the

adaptability of a standard notebook and the features of modern software: you can write, insert images, audio, links, and tables in this section. OneNote is highly suitable for personal organization, learning, professional work, and teamwork. With Microsoft 365 cloud integration, every entry is automatically synchronized between devices, delivering data access wherever and whenever needed, whether on a computer, tablet, or smartphone.

Skype for Business

Skype for Business is an enterprise platform for digital communication and teamwork, that offers a unified platform for instant messaging, calls, conferencing, and file sharing in the scope of one secure method. Created as a business-ready version of Skype, with additional features, this system was designed to give companies tools for effective communication internally and externally in accordance with organizational standards for security, management, and integration with other IT systems.

Microsoft Publisher

Microsoft Publisher is an easy-to-understand and budget-friendly desktop layout software, focused on the creation of sleek and professional printed and digital media you don't have to use elaborate graphic software. Unlike classic editing applications, publisher offers more sophisticated features for precise layout and element placement. The application features a wide selection of ready templates and customizable design options, enabling quick initiation of work for users lacking design skills.

- Universal activator supporting a wide range of software licenses
