Microsoft Office is a dynamic suite for work, education, and artistic projects.

Microsoft Office is one of the most trusted and widely adopted office suites in the world, comprising everything needed for smooth work with documents, spreadsheets, presentations, and other tasks. Suitable for both expert use and everyday tasks – while you're at home, school, or your place of work.

What is included in the Microsoft Office package?

Microsoft OneNote

Microsoft OneNote is a digital note organizer designed for rapid and user-friendly collection, storage, and arrangement of thoughts and ideas. It pairs the simplicity of a traditional notebook with the innovations of current software:

you can type text, upload images, attach audio, links, and tables here. OneNote is perfect for personal notes, learning, work tasks, and collaborative efforts. By connecting to the Microsoft 365 cloud, all data automatically updates across devices, ensuring that data can be accessed from any device and at any time, whether it's a computer, tablet, or smartphone.

Microsoft Visio

Microsoft Visio is a purpose-built application for drawing diagrams, schematics, and visual representations, applied to present complicated details visually and coherently. It is fundamental for presenting processes, systems, and organizational architectures, technical and architectural visual schemes of IT infrastructure. The application offers a vast array of ready-made components and templates, that are straightforward to drag onto the work area and interconnect, constructing organized and readable charts.
